Language development class

Intensive support and guidance towards growth of your child by our loving mentors

- Mentoring
- Guidance
- Support
- Care
- Advice

Why?

Language is a gift. We use it to communicate. We use it to express ourselves. We use it to connect. Language broadens your horizon above and beyond.

For whom?

The Development Class is a wonderful place for children from 2 to 6 years old who can use an extra immersion in language. Where we pay the same amount of attention to social-emotional competences.

How?

We guide children through multiple activities that stimulate their language development.

Resilience, responsibility, self-confidence, teamwork, problem solving skills as well as creative and scientific thinking are just some of the benefits

“Enjoy! is a world in which children are given the ability to be....”

“Learning a language is like opening a door to an adventure. We want to enable children around the world to be young global citizens better prepared for exploring their world”

That's how they grow!

Essential for growth is the integration of support for children's cognitive and socio-emotional competence. These areas are inseparably linked in. When a child feels comfortable the head and body are in balance, they will feel safe and so many more steps can be made. Even when the child has challenges in these areas. For example, children who do not have Dutch as their mother tongue or children who have a challenge in speech language or in other areas. We challenge these children to become the best version of themselves!

When a child feels safe and can deal well with other children, their mentors and the environment, the cognitive part will develop to the maximum.

How do we teach that to children?

We have created a pleasant environment, collected materials and designed the interior in such a way that we keep the children open to learn through role play, puppetry and creative activities.

Whether it is about discovering how the language works, how to use numbers or learning the days of the week, feeling safe is the necessary base for discovering the maximum potential of the children. It is their own path, their own development. We are just the mentor.

When a child goes to school we can play an advisory role. We can also guide the process and, together with the school, draw up a growth plan for a child.

Do you want to know more about the ins and outs of The Development Class?

Please contact us through: info@enjoy-amstelveen so we can make an appointment to get to know each other and provide a tour.
